

## Introducing GeneticHomeland.com

# GeneticHomeland.com

Mapping Technology for  
DNA, Surname & Genealogy Research

## Mapping Technology for DNA, Surname & Genealogy Research

### Genetic Homeland Finder Search Engine

- Use Y-DNA, surname histories, and geographical analysis tools to identify your genetic homeland.
- Genetic Homeland Finder lets you visualize how multiple surnames and data sources intersect to help overcome 'brick walls' in your genealogy.
- Dynamically add / remove records lets you manipulate the map in real-time to test hypotheses.
- Also facilitates further research and site visits.
- Built for PC, Mac, mobile phone or tablet use.

### Registration Form

Registration for GeneticHomeland.com is free and there are no monthly subscription fees. Extended querying of the database beyond the initial queries does require a small fee on a pay-as-you-go basis.
